The Enhancing Diversity in Graduate Education (EDGE) Program is a postbaccalaureate summer enrichment program designed to strengthen the ability of women to successfully complete graduate programs in the mathematical sciences, with particular inclusion of women from groups underrepresented in mathematics.

The summer program consists of two core courses in analysis and algebra/linear algebra. There will also be minicourses in vital areas of mathematical research in pure and applied mathematics, short-term visitors from academia and industry, guest lectures, graduate student mentors, and problem sessions. A follow-up mentoring program and support network will be established with the participants.

The 2008 EDGE Summer Program will be held June 5–July 2, 2008, at Pomona College in Claremont, CA, with local coordinator Dr. Ami Radunskaya. The deadline for applications is March 3, 2008. See the website http://www.edgeforwomen.org/ for further information and full eligibility requirements.
