- 1) Maryann is a great TA. She makes sure that she writes neatly and clearly on the board so that everything is easy to understand. If we have homework questions she makes sure to do something similar, rather than just to the exact problem for us, so we actually have to learn and apply it to the HW problem. She is also remained very upbeat and patient throughout the quarter, even though it was an 8:00am section and half the class was still asleep. Overall, Maryann was one of the best TA's that I had this quarter. As a Freshman, I would feel a little more at ease if there were more TA's like her out there to help us.
- 2) Maryann is a VERY GOOD TA and I'd definitely recommend her. She's always there when you need help no matter what.
- 3) great
- 4) Maryann is an excellent TA. One time before a midterm she even extended her regular Wednesday office hour by two hours to go over material with students.
- 5) This is a great TA, she took her own time to help me out!
- 6) Extremely helpful, very prepared, and goes above and beyond to help students better understand material. Willing to set up review sessions outside of class and office hours for midterms and exams. VERY enthusiastic about the subject, which helps make an 8 AM discussion much more enjoyable.

- 11) very good TA
- 12) Maryann knows and understands the material very well, but does not know explain it in ways that students who are confused can understand. Math can be related to other things in order to make it easier to understand. She is very knowledgeable and always tries to help in any way she can.
- 13) Maryann is very thorough and shows a genuine desire to help her students acquire the knowledge necessary to perform well in the course. Her firm grasp on the material makes her a reliable source for help.
- 14) Maryann has the students well being in mind, she works out problems on the board and helps us understand complex topics. If we have any grading questions she is always able to help answer them for us.
- 15) The TA was always willing to review of other methods of solving a problem if a student did not understand immediately; which was very helpful. In addition to that, she was very helpful and willing by providing everyone with reviews before a test.
